

Eldie - Virtual Assistant for Elderly People

Friday 19 September 2025 15:00 (15 minutes)

After the age of 60, most people begin to experience a decline in their cognitive skills. Eldie is a platform dedicated to slowing down mental deterioration among seniors. Studies show the effectiveness of games in training the brain in multiple aspects, such as: memory, attention and problem solving skills. By combining the scientifically-researched games with analysis of daily activities, Eldie calculates the brain score, for each user.
