

Artificial Intelligence an Useful Tool in Students' Learning Process

Thursday 18 September 2025 12:55 (5 minutes)

The theme of this paper focuses on exploring the impact of artificial intelligence on the student learning process. With a world increasingly digitally connected, it is inevitable to recognize that AI is becoming a central element in the educational landscape. This study was conducted during the period 03/19/2024–04/16/2024

Authors: TUDOR, Andrei (University of Constanta); TEREN, Horia Matei (University of Constanta); GASNER, Paul (Agency ARNIEC/RoEduNet, Alexandru Ioan Cuza University of Iasi); VASILE, Monica (University of Constanta)

Presenter: GASNER, Paul (Agency ARNIEC/RoEduNet, Alexandru Ioan Cuza University of Iasi)

Session Classification: Networking in Education and Research

Track Classification: Networking in Education and Research
